

BLUEY GRANNIES Game

CONTENTS

- 1 4-piece jigsaw game board
- 1 sandpit board
- 12 granny item/sandpit cards
- 1 tablet board and stands
- 4 character cards and stands

SETTING UP THE Game

Put together the jigsaw game board and place it in the centre of the table.

Assemble the tablet board and place the granny only side facing the players at the top of the game board.

Place the granny item cards sand-side up on the sandpit.

Each player chooses a character and places it on the relevant starting space.

1 TO PLAY

The youngest player starts. Turn over a granny item card, and see if it matches the first space on your path.

2 IF THE CARD MATCHES

If the card matches, move your character one space along the path onto the matching item. Show all players the card before returning it to the sandpit, face down. Play passes to the next player.

Note: Players can only move to the next space on the path and cannot jump to a matching space.

3 IF IT DOESN'T MATCH

If the card does not match the next space on your path, show all players the card before returning it to the sandpit, facedown.

4 NANA NAP CARD

If picked, the player returns this card to the sandpit, face down and mixes the cards in the sandpit. Players are encouraged to say "Just having a nana nap" in a funny voice.

5 GROUCHY GRANNY CARD

If picked, the player moves back one space, and once again mixes the cards in the sandpit. Take this card out of play.

6 THE WINNER

The first player to reach the end gets to call Nana and teach her how to floss! The player turns the tablet over to show the grandparents flossing. At this point all players are encouraged to get up and floss too!
